Keeping Up - - With Uplanders

By V. V. P.

FUTURE EVENTS

Many historic steps may be taken by residents in this community and adjacent areas within the next few weeks.

A strong movement is under way to get the Upland school boundary line extended south to the freeway, thus increasing this city's school population by about 800. At the same time, Fontana residents are voting on the question of withdrawing from the Chaffey school district.

Cucamonga incorporation movement is also being watched with much interest. If the current enthusiasm continues, a new city will be formed. Uplanders are unconcerned about the proposed incorporation talk. It is very interesting just to be on the sidelines observing the keen interest shown by so many residents in the future "Cucamonga".

Early next month, the city council will receive a comprehensive plan for a sewerage system, designed to serve a population here of 65,000.

The Chaffey advisory finance committee will meet Oct. 13 to begin a discussion on how to prepare for the great increase in high school and junior college students. You remember, the May bond issue was soundly defeated. The problem was not solved, the answer merely being postponed.

WRITE MORE LETTERS

That is the appeal of local postal officials who are observing National Letter-writing week beginning Oct. 2.

Postmaster Roy A. Ray of Upland and the Alta Loma and Cucamonga postmasters today invited the public to participate in observance of this week.

"As the result of the observance of the week, many home ties are renewed, old friendships recaptured and new ones discovered," Mr. Ray said. In previous observances, wide interest has been shown in this increased letter-writing endeavor, it is reported.

MOST AGED RESIDENT

Our search for the most aged Upland resident can now be ended. Mrs. Marian Cochran will soon be 102 years of age. The other day we featured Mrs. Etta Fetrow at the age of 97 years. We have known Mrs. Cochran for years but somehow she missed our list of old-timers until a friend suggested her name.

If there is another person here older than 102 we, of course, want to hear about it. In the meantime, we have a file of various names of people who are in advanced ages.

Older people are a real inspiration to us and others.

We revere them for their physical ability and mental alertness.

BANK BUILDING

A public spirited citizen did the downtown area a good deed over the week end — he cleaned off the sidewalk adjacent to the former Bank of America building on Ninth St. at Third Ave. We know his name, a very good neighbor, but mum's the word as to his identity.

ZONING DEVELOPMENT

Yes, the city zoning ordinance does have some teeth.

Very often, the ordinance is changed to permit developments but if the applications are not in keeping with the general spirit of the city-wide zoning program the city planners turn down requests.

Three applicants learned this last week. Two residential developments and one small business project were affected. Why? To permit them, would have been "contrary to a logical development of the community in that the sites were in isolated locations." Or words to that effect.

It is difficult at times for residents to understand that a so-called "orderly development" must be followed. At least, that is the aim of the planning commissioners. Ten years from now or less, there may not be much left of what we have now. In the meantime, the commissioners are seeking to have growth come from "the center of town out."

EXTRA TOP COAT?

Do you have our top coat?

If, not where could it be?

The other day we were faced with the problem of planning to go to a little colder climate for a short time. Then we thought of our top coat for the first time in five months. It wasn't any place in our household. Then, it must be at the office; or maybe at the cleaners. Now, we are at the end of our search.

Of course, it might be in a closet at one of a dozen or so meeting places in the community. Maybe so, but we are about through searching.

All of which is very fine proof that here in the southland the need of a top coat is very rare. A new hat lasts us about two trips; then it is forgotten some place and never missed until some special occasion. Likewise, with the top coat.

Her Life Began In 1853

Mrs. Marian T. Cochran and Agnes Pemberton, R.N. in the former's room in the Euclid Ave. Nursing home where Mrs. Cochran was interviewed last week. Upland's most aged citizen, who will be 102 years of age on Dec. 11, has clear memories of a life of great usefulness as a teacher, a profession which she loved and which she carried on from early girlhood until after she was a grandmother.

Marian Cochran Former Teacher In 102nd Year

By Gerry McGeer

Upland's most aged and venerable citizen, Mrs. Marian T. Cochran, now in her 102nd year, while born in Illinois, really considers Upland her home.

These days, Mrs. Cochran, a former Upland school teacher, who instructed in their youth, such people as Mrs. R. H. Marr, Mr. and Mrs. James Paulin and Mrs. W. W. Mather, spends most of her time confined to her bed in the Euclid Ave. Nursing home. She was getting around until last year when she suffered the third bad fracture since 1940.

What is it like to have lived for more than 100 years?

It's wise not to be too curious about this question that has passed through the thoughts of every thinking human. To have lived so long is in itself a wonderful thing, but to have attained that age also means that one has suffered in comparison. It is a state of great loneliness, for no matter how kind companions of the present are, those dearest and nearest companions have been gone a long time.

LONG TALK

I felt compassion and deep sadness when I talked to Mrs. Cochrna. As I bent over her she reached out her hand to mine and for as long as we talked, her hand was warm in mine. Except for the wisdom of her eyes and her unquenchable sense of humor, which is very sharp, I felt the protective instinct one feels when being with a very appealing child.

"How does it feel to have lived more than 100 years?" I asked.

She thought for quite a while. Then she smiled and then I thought she was going to cry.

"Living to be more than 100 years of age is not greatly to be desired," she said. Then she paused for quite a while. "People can do everything they want to do in much less than 100 years".

Both her eyes and her hearing have failed, but her mind is keen and she has very clear memories of the past.

ILLINOIS NATIVE

She was born on Dec. 11, 1853, in Warren Co., Illinois, in Kirkwood, when it was called Little America. She was educated in Abingdon college and started to teach school at an early age. During her teaching career she taught in her home state, and in Iowa, Kansas, Oregon, Washington and California.

"I loved teaching", she said. "Mind you I wasn't a good primary teacher because I couldn't sing and primary teachers must sing. I taught older students and adults.

"I never had to ask for a post. They always came to me. When I was teaching in Iowa, the people in a school district in Illinois wrote to the school trustees and wanted me to go there. They said they would pay me whatever I

The request for a change has been previously turned down by the planning commission and the scheduled public hearing is the result of an appeal from the planner's decision.

Residents of the area are petitioners for the change.

The public hearing date is a change from the original time set of Oct. 6.

Bags Big Game

John C. Belcher

Returns From Big Game Hunt

John C. Belcher is home today from his most successful big game hunt. He has been on nine of them and the Uplander is seeking a coveted North American big game award.

Gone 30 days, Mr. Belcher was in the Prophet river area in northern British Columbia, 1,000 miles north of the U. S. border.

He got four big game, as follows:

1. A moose with palms 42 inches from tip to tip and a 53-inch spread; 16 points on one side and 17 points on the other. It is with this entry, Mr. Belcher will file for the Boone and Crockett North American award. Indications are this is the largest moose this year in the Prophet river area.
2. Beautiful black stone ram, with a 37 inch curl.
3. Rocky mountain goat with eight inch horns.
4. Caribou with double shovel horns, a rarity.

Mr. Belcher, who resides at 221 E. 11th St., included in his hunting party, a cook, a guide, a wrangler and 15 pack horses. He made his first trip for big game in 1949.

Price Of Single Copies Of The Upland News Advanced To 10 Cents

Price of single copies of The Upland News will be 10 cents, effective with the Oct. 6 issue. The 7 cent price has prevailed for several years.

The News management is eager to supply copies to newspaper buyers at The News office, at the drug stores in Upland and Cucamonga and elsewhere but the slight increase in cost is made necessary by economic conditions.

The price advance, however, is only for the single copies of The News and does not apply to the regular price to subscribers. It is easy to have The News delivered by mail at a cost of slightly more than 5 cents a week. A telephone call to 311-06 is all it takes to have The News delivered. Subscription rate is $1.75 by the six months and $3 by the year.

Air Victim

Thomas Lloyd Dickens

Uplander Dies In Plane Crash

Thomas Lloyd Dickens, 19, son of Mr. and Mrs. Lloyd Dickens, 550 No. First Ave., died Saturday in the crash of a U. S. Air Force training plane about 29 miles outside Cheyenne. Delayed information of the tragedy reached his parents Monday night.

The young man, who was born in Upland, attended St. George's school, Ontario, Newman High school in Fontana and Chaffey High school.

He enlisted in the U. S. Air Corps in February 1954. He received training in Texas and Mississippi and was stationed at Stead Air Force Base, Reno, Nev., at the time of the crash.

Meager details received by his parents were to the effect that he was aboard an Air Rescue squadron plane on a training flight from the base to Detroit. The plane crashed during a snowstorm. "Tommy" Dickens was the radioman. All seven crewmen lost their lives.

Besides his parents, he is survived by one sister, Mrs. Michael F. Kerwick, Bellevue, Wash., and one brother, Richard M. Dickens, Temple City.

Lloyd Dickens, his father, is business manager of the San Antonio Community hospital.

Funeral arrangements are awaiting the arrival of the young flyer's body. Stone Funeral Home is in charge of arrangements.

Cucamonga To Hear Mechanics Of Incorporation

Steps necessary for incorporation and alternate choices in lieu of incorporation were explained to members of the Cucamonga District Chamber of Commerce Friday night by Atty. Stanley G. Shaw of Ontario.

The members heard an explanation of both recently enacted laws governing the formation of a community service district or a county service area, each of which allows to such district certain controls over their own government.

Committee members were appointed by the district to explore possibilities of incorporation or such type government that would accomplish their own control over zoning and planning, obtain more liberal proportions of direct taxes as the gas tax for their own street use and to afford them the means of forestalling any attempts to annex their community to larger communities.

The committee in reviewing the recently enacted laws allowing more limited control of a district, but falling short of the benefits of actual incorporation do not see in these a solution of the wants and needs of the district.

The committee, charged with investigation of all angles looking toward incorporation will pursue further their assignment by a study of suggested steps of incorporation just received from the California League of Cities showing various sources of possible income as well as expenditures to be expected in the operation of a city.

James Orsburn was assigned the particular task of learning an estimate of incomes possible through such items as a sales tax, liquor tax, business licenses, in lieu tax and proportion of gas tax available.

Judge W. D. Hutton of the local justice court will learn an estimate of revenues that might be expected from both traffic and court fines, and Leslie Foster will study and report on the mechanics of fees, permits, franchises and such items. A study a city government is to be made by H. A. Ledig, Jr., and Frank H. Van Fleet. All committee members have been urged to seek out such information as has been assigned them that a full report of the committee may be quickly returned to the district organization.

Upland School Children Now Attend Ontario

For the purposes of getting names on a petition asking a change in school districts, the area south of the Santa Fe right-of-way has been divided into seven sections with a captain in each.

Copies of a petition, prepared by an attorney, will be in circulation this week. The petition is directed to the San Bernardino county board of supervisors asking that the Upland school district boundary line be extended to the freeway.

Mrs. R. E. Baird, 313 Vine Ave., one of the leaders in the current project, is being assisted by many of her neighbors. Ted Atwood and Floyd Allen are serving with her in general supervision of the district-wide circulation of petitions.

A meeting of interested persons was held in the Baird home Saturday night when tentative plans were discussed. Representatives of the group have been in touch with members of the Upland and Ontario boards of education and the county school superintendent's office.

Supervisors May Act

If 25 per cent of the registered voters in the area sign the petition, the supervisors will consider the request for a change in school boundaries. Purpose of the current activity is to obtain signatures. Later on, written approval of the change from the two school boards may be sought. Unofficially, a member of the Ontario board said his body would gladly cooperate with the movement.

At present the Ontario school boundary extends north through Upland to the Santa Fe right-of-way. About 800 students between the Santa Fe and the freeway

McLeish Tells Of New High School At Rotary Meeting

Alexander McLeish, principal of Upland High school, was the speaker at Wednesday's luncheon meeting of the Rotary club, in the Upland Woman's clubhouse.

Mr. McLeish explained that he started his work as principal a year before the school opened and this necessitated visiting nearby schools in connection with student potentialities as well as many other phases of planning.

The school, with an ultimate capacity of 1200 students, now has 738 enrolled. The staff of 16 teachers was largely recruited fnom Chaffey and the Junior High school. Final plans call for 42 classrooms as well as other buildings and facilities required for a modern high school.

Stressing the need of a good academic background he stated that 46 per cent of students enrolled intend to go to a university.

This Is Life

By Gerry McGeer

The Spartans are said to have lived very rugged lives. They practiced it for some esthetic reason, glorying in self denial and hardship.

Now we know just how they must have suffered.

Of course they didn't have many of the things that we take for granted in this day and age. For a Spartan existence, however, we recommend just trying to get along without a refrigerator as this poor character did during all that hot weather.

It's not that we don't have a refrigerator. We have one we like very much. One without a chip of paint off it's gleaming sides with a top freezing compartment just right for a bachelor gal who likes to get enough groceries in the house for a couple of weeks at a time.

But it was far away. Not only in miles but wrapped in many reels of tangled red tape. To join me and make my life bearable once again it had to be passed through customs and either carried in an expensive freight van or transferred over three different railways.

Then there was the problem of getting those at the other end to understand that it is much less costly to use the railway, even if more involved.

It was practically impossible to obtain the necessary forms for shipment and this necessitated much correspondence, without result.

Finally who should come to our rescue but Herbert Hall of the Pacific Electric company in Alta Loma. He didn't have an import form but he had an export form. We filled it in. Typed on an additional declaration. Had Col. Jas. K. Marr in the First National Bank attach his very legal notarial seal and then we sent it off, post haste, air mail special delivery.

Now it's a matter of days we hope, with our fingers crossed, until we have one of the most necessary pieces of household equipment under the roof and we will really be able to live again. For along with the refrigerator will come many other lairs and pennants that we've been lonely for since we left our Canadian home.

Few of us have the opportunity to literally walk on money. That however, is the experience of Ted Huber of Van Ness Water Gardens when he removes the display they place in the Fair at Pomona every year.

Last year when Mr. Huber dismantled the water lilies from the horticultural building the money on the floor of the pool was two and three inches deep.

During the fair the Van Ness water lily display also serves as a wishing well for the Pomona Kiwanis club's fund for underprivileged children and youth activities.

This year, because of the rarity of one of the specimens in the display fair officials did not put the sign on the water lily pool but the people remember and if the water lilies and their leaves have a slightly beaten up look when you see them it's in a good cause. If you are generous hearted enough to donate try and slip your coins in without damaging the specimens. The Ted Ubers will appreciate you thoughtfulnes.

10-Acres For New Upland School Taken Under Verbal Option

Looking toward the expansion of the Upland school system the Upland school district reports it has a 10-acre plot on Fifteenth St., now under verbal option.

The site, intended for a future elementary school, is located midway between Euclid and San Antonio Aves., and should provide an additional school for Upland growth.

A description of the property and intention of the district, was presented to the Upland Planning Commission in its meeting last week and was given approval, subject to acceptable plans for construction at a subsequent date.

The property is now owned by Don E. Palmer and with the planning board's approval of the intent for the property, the school board is in a position to exercise it's option and acquire the property.

Marian Cochran Former Teacher In 102nd Year

(Continued From Page One)

asked. The school trustees told them they had hired me. I received a letter telling me they would pay me $60 a month to go there. That was $20 more than teachers were paid the, so I went to Illinois."

Her husband, a Methodist minister, later became a teacher.

She continued teaching after she was married and Clifford L. Cochran, Jr. her only surviving son was born in Iowa before the family came west. They moved to Oregon in 1892 and Mrs. Cochran was on the staff of Willamette university in Salem. Later they lived in Tacoma, Wash. There she taught in the Methodist college and did some substitute work in Tacoma city schools.

HERE IN 1901

They came to California in 1901 and her first teaching in Upland was in the old Upland grammar school on the corner of Ninth St. and Euclid Ave., diagonally across from the rest home where she is staying. Her second son Harold died in Upland in 1907.

This school and a school she later taught in, known as the East 10th St. school, have both been demolished.

When her husband died in 1921 she left Upland and returned to Illinois. For 10 years she taught in the town of her birth. In 1931 she returned to make her home in Ontario, with her son and his wife.

She continued in good health until she broke her hip in 1940. Recovering from this injury she suffered a second hip break in 1945. She recovered sufficiently to walk. Last year she was walking with the aid of a walker, but a fall caused a leg fracture and since that time she has been either in San Antonio Community hospital or the rest home.

She continues to be an extremly individualistic and strong willed lady. Often she refuses medicine because she doesn't believe in it and this causes her son some distress.

"She fights every effort to prolong her life", he says.

She insists on keeping in touch with her relatives in Illinois and because of her life and work there is a lot of interest in her correspondence, which Mr. Cochran answers for his mother.

Her nearest relatives are her son, his children, Mrs. Geroge B. Witman, Jr., Clifford L. Cochran, III and Harold B. Cochran. Mrs. Witman has a son and daughter and Harold Cochran has a son and daughter, who are twins.

The Cochran home, where Mrs. Cochran spent so many happy and useful years, is on the north side of Foothill Blvd., just across the street from the eastern boundary of the new Upland high schoo. Mrs. Cochran still owns the property.

RECEIVE COMMUNION

Members of the Altar and Rosary Society of St. Joseph's Catholic church will receive communion, Sunday, at the 7:30 a.m. mass.

STUDENT OFFICERS—Five Chaffey college sophomore class officers, elected this week are from the Upland, Alta Loma and Cucamonga area. Shown above are four of them, from left to right: Judy Smith, daughter of Mr. and Mrs. R. L. Smith, 386 Verdugo Way; Charlotte Carrari, daughter of Mr. and Mrs. Mike Carrari, Alta Loma; Laura Shepherd, daughter of Mr. and Mrs. Basil L. Shepherd, 1549 N. P-T. A. Tackles Vital Questions

"What can I do at home to help my child at school?" "How are the three R's taught at Baldy View?"

These and many other questions of parents will be answered when the first fall meeting of Baldy View P-TA is held at the school Tuesday, at 7:30 p.m.

Cub scouts of Mrs. Allen Yaple's Den 10 will lead the flag salute to open the short business meeting. Harold Cook, Supt. of Upland schools and Mrs. Frances Mitchell, principal of Baldy View school, will be introduced by Mrs. Walter Stewart, P-TA. president. Parents will then adjourn to children's rooms to meet with teachers. Each teacher will discuss her classroom program and what she hopes to accomplish during the coming school year. Questions will be answered at this time.

Room mothers, under the direction of Mrs. James Murray, hospitality chairman, will be hostesses for the social hour following the discussion period.

Child care will be provided during the meeting.

24 Hour Prayer Vigil Is Planned

The First Methodist Church, Upland, will hold its traditional 24 hour prayer vigil, commencing on Friday, 6 a.m. and continuing through Saturday, 6 a.m.

It is open to the public who desire to spend an hour of quiet meditation in the sanctuary which the Methodists believe to be an excellent way in preparing for the world wide communion service Sunday.

Mr. and Mrs. Bud Keller, 715 N. Eighth Ave., entertained at a barbecue steak dinner, recently, honoring Mr. and Mrs. John Broersma of Ontario, who are leaving to make their home in Anaheim.

Troop Elects New Officers

Barbara Davis was elected president of Girl Scout Troop 4 at a recent business meeting in the home of Mrs. Brooks Drayton, 836 10th Ave.

Other officers elected were: Sherry Diane Bastedo, vice president; Christine Corrigan, secretary; Carol Dee Waggoner, treasurer; Carol Ann Pomeroy, hostess; Irene Martinez, publicity.

The Rambler Badge was chosen for the troop project to encourage an outdoor program.

Other troop members present were: Melanie Guiliano, Beryl Drayton and Mrs. E. C. Martinez, assistant leader.

St. Mark's Group To Present Playlet As Fund Benefit

"Three Coins in the UTO Box" is the title of the playlet to be presented by St. Clare's guild of St. Mark's Episcopal church Tuesday, in the Parish hall it was announced by Mrs. Elton Harvey, chairman for the United Thank offering.

The "United Thank Offering is a thank you prayer," given only by the women of the Episcopal churches. This offering is collected twice a year within each individual parish and then sent to the treasurer of the National Convocation of Women's Auxiliaries. The money is then kept and every three years presented to the Triennial Convention and will add up to a million dollars or more.

Cast for the playlet includes Mesdames, Joseph Benish, Robert Sinclair and Richard Whittaker.

Refreshments will be served by the hostesses Mesdames Frank Benninghoff, William Terpening, Robert McCutchen and J. Allyn Rush.

Both Chaffey Grid Elevens Travel For This Week's Games

Scores of both the Chaffey Panthers and the high school Tigers looked more like baseball than football tallys as both teams were defeated last weekend by a lone point.

Friday night on Graber field the Tigers before a crowd of 4,500 fans touched off the scoring when Carl Skvarna intercepted a pass of the Alhambra Moors then gave the crowd their money's worth with a spectacular 88 yard run for a TD.

Both teams were weak with the toe on conversions with the Moors making the only one point kick which spelled final defeat for the Tigers 13-12.

SAFETY DEFEATS PANTHERS

When the East Los Angeles line barged through to block an attempted kick from behind the goal trapping the ball for a safety and two points they more than made the necessary margin to hand the Panther squad their 8-7 defeat at Graber Field Saturday night.

Some 2,400 spectators watched the close tug which was hard fought and fraught with penalties, the Panthers losing 65 yards and the visiting Huskys giving up a total of 75 yards for infractions.

NO HOME GAMES

Neither team plays at home this week. The Tigers travel to Santa Ana while the college Panthers wend their way to West Contra Costa for a Friday night game.

School Election For Grade Pupils

The Cucamonga school has organized a student government for the first time and held an election of officers. Charles Solano is the first president.

Included in the organization are students of the sixth, seventh and eighth grades. Much enthusiasm and excitement was created during campaigning by youthful nominees for office. Posters were placed in classrooms of the three competing grades and ballots were distributed.

Campaign speeches were made at an assembly, when the candidates were introduced. Ralph Bullock, vice-principal, explained the purposes of student government and Mrs. Theresa Stafford, principal, made the concluding address. The assembly opened with a salute to the flag followed by the singing of "America the Beautiful".

Other successful candidates were: Riley Morgan, vice-president; Weldon Arington, secretary treasurer; Amando N a varro, commissioner of safety; Marcial Lucero, commissioner of playground and school supervision; Rosina Ynostroza, girls' representative; and Joey Solano, boys' representative.

The other nominees for office were:

Felicitas Flores, president; Tony Mandala, Jimmy Morris, Loretta Sepulveda, vice-president; Jessie Guerra, Irene Hernandez, Celia Martinez and Dee Ellen Orsburn, secretary treasurer; Mary Lou Martinez, commissioner of safety; Bobby Apodoca, Lois Carson, Marie Castro and Joseph Selva, commissioner of playground and school supervision; Adelaide Garcia, Elaine Keith, Juanita Shepherd, Marcella Villalobos and Fay Zuccato, girls' representative; and Jimmy Ferguson, boys' representative.

No President is elected until the votes are counted. Remember 1948?

Sidewalk law, like sidewalk medicine, is strictly for the birds.

Science Separates Fact From Fable

Separating fable from fact will be the substance of the Sunday lesson sermon in the Christian Science church in Ontario.

In illustrating this, the lesson will show how John, the Baptist, in describing the coming of Christ Jesus says in Mathew, 3:11, 12, "He shall baptize you with the Holy Ghost, and with fire: Whose fan is in his hand," adding that he will separate the wheat (facts) from the chaff (fables).

"The Science of Christianity comes with fan in hand to separate the chaff from the wheat," says Mary Baker Eddy in "Science and Health with Key to the Scriptures."

The Golden text Sunday is taken from I Corinthians 7, verse 31, "The fashion of this world passeth away".

Sale of City Owned Tract Being Studied by Council

If tentative negotiations under way today are completed, the Boyd Lumber Co. of Alhambra will buy the city's 10 acres on E. Arrow Hwy. for $2,500 an acre.

That price was offered and accepted.

Yet to be decided are matters of railroad siding location and other items as to the use of the property, long owned by the city. The site is on the south side of Arrow, across from the American Legion clubhouse and a short distance west of Grove Ave.

The sales tax income feature of the business was one of the factors appealing to the councilmen when the question was presented at an adjourned meeting Friday afternoon. Only a few hours before the meeting was the proposal made known.

Elwin Alder, assistant city manager, is working with Robert Marriott of the lumber company, on details. Before the transaction is completed, various site improvement problems will be settled.

The lumber company is primarily concerned in supplying building materials for large residential subdivisions as well as the regular retail business, according to Mr. Marriott. The firm has been established more than 30 years. No room for expansion is given as the reason for seeking a new location. Eighteen persons are employed.

It was unofficially reported the firm's annual business amounts to two million dollars.

Presbyterians' Double Sessions Start Sunday

Double sessions will be started for the first time Sunday by the Upland Presbyterian church with duplicate services for most of the Sunday school classes and in the worship services at 9:30 and 11 a.m.

The church session has extended a special call to all members to attend the communion service. In addition to being world-wide communion Sunday, it is also "our own family Sunday," according to a letter sent to all members by the Rev. Trusten A. Hart.

Church school will be held at both hours for all but the junior high and high school youths.

"Our church has been well attended, if filling the pews is the goal," Rev. Hart said. "But if the practice of worship for every Christian is our goal, we have no cause to brag. We should duplicate Easter's attendance every Sunday now that our church has grown to its present membership."

"What Man Cannot See," will be the sermon topic of the Rev. Mr. Hart during the morning worship services. Music will be sung by the senior choir.

Mennonites Observe Rite

Holy Communion will be observed in the morning service of worship Sunday in the First Mennonite church in observance of World Wide Communion Sunday.

The Rev. Paul Goering, pastor will speak on, "Secure In The Storm".

During the evening service at 7 p.m. there will be a recorded interview with pastor Martin Niemoller, a leader in the German Evangelical church and of the Evanston Assembly of the World Council of churches, last year. This service will be a further observance of the world wide fellowship of Christians.

Adult and young people's study groups will meet at 7:45 p.m.

Joins World Observance

The First Methodist church will join other churches across the world in the annual observance of World Wide Communion Sunday.

"Communion with Christ: Fellowship With Others", will be the sermon topic of Dr. Ralph W. Lee, pastor.

The closing feature of this significant service, according to Dr. Lee will be the sacrament of Holy Communion. Dr. Lee will speak the sermon and preside at the communion altar. The service will start at 11 a.m. A nursery is maintained for the care of infants and small children.

The church school starts at 9:30 a.m. with classes for all ages.

All youth groups meet at 7 p.m. under the direction of James Manolis, director of youth and Christian education.

The Vesper service begins at 7 p.m. when the Rev. Charles E. Engle, missionary on furlough from India, will speak on "Pioneering With Christ In India", and will show illustrated color motion and still pictures. A social hour will honor the Rev. Mr. and Mrs. Engle following the service.

Even Better Than A Hay Loader

Fewer hands and a little mechanical help makes for faster field loading of wine grapes in this 290 acres of vines on the S and S Ranch on Etiwanda Ave. Mostly in Zinfandels the crop is being loaded mechanically for trucking to the Cucamonga Winery.

Zinfandel Crop Loss May Reach 40 Per Cent

An even greater reduction in the shipping crop of the popular Zinfandel grapes than the preliminary over-all prediction of 30 per cent is now feared according to a re-check by Harold Anderson, agricultural inspector.

Zinfandels, always in high demand in metropolitan markets indicated a smaller crop at setting time prior to the recent heat spell which now shows a still further reduction from burning. The over-all loss shortage over last year may reach 5 to 10 per cent greater than the original crop shortage prediction.

Harvesting of the grape crop comprising some 20,000 acres in the Cucamonga district is now at its peak and should be completed by the middle of October, it was disclosed this week.

Communion Day Marks Unity

Many Upland churches will participate Sunday in World Wide Communion services, according to the Rev. Paul Goering, president of the Upland Ministerial Union.

"World Wide Communion services held the first Sunday in Oct. for many years, unite Christians all over the world in celebrating their fellowship in Jesus Christ." the Rev. Mr. Goering said.

"Churches of every nation and culture participate, including those of the protestant faith as well as Greek and Russian orthodox commun-

With them go their three children, Esther Louise and her twin brothers, Timmie and Tommie. Mr. Merritt who is a time accountant with the Convair company has been transferred to the Lancaster area.

Training At Scout Board Day Session

An all day board training meeting was held recently by the executive board of the Chaffey Council Girl Scout Assn., in the Girl Scout House. According to Mrs. George Draper, president, the session, held in conjunction with the regularly monthly meeting, was for the purpose of acquainting all board members with the specific duties of each member.

During the business session, Mrs. Draper read letters of resignation from Mrs. J. F. Kilfoil, secretary, and Mrs. Earl Dunning, treasurer, and expressed regret that other commitments made it necessary for these retirements.

Mrs. Draper welcomed two new board members, Mrs. Robert Sutherland, program committee chairman, and Mrs. Anthony Keyes, treasurer. Previously Mrs. Keyes served as vice-president.

Miss Isabelle McCullough, executive director, conducted a two-hour training program familiarizing those present with the complete Girl Scout organizational plan. Mrs. Robert Barton, regional volunteer trainer, joined the group for a Nose-Bag lunch. Mrs. Barton led the afternoon session by showing a film strip illustrating the role of the professional worker in Girl Scouting. Those present were:

Mesdames George Draper, Walter Stewart, Anthony Keyes, George T. Stamm, Jr., Clinton Bryant, James Mertz, Roy Outcen, Lewis Patton, Ray Ferguson, Robert Sutherland, Miss Ethel McCorkindale.

World Wide Communion Sunday will be observed in St. Mark's Episcopal church Sunday with two celebrations of the Holy Eucharist, the first at 8 a.m. and the second at 11 a.m. The Rev. Joseph A. Erickson, Jr., rector, will be the celebrant.

Family morning prayer and church school will be held at 9:15 a.m. The adult class, led by Father Erickson, will follow the service and will discuss the beginning of the Gospel.

Supervised nurseries for small children are available at both the 9:15 a.m. and the 11 a.m. services.

Chaffey Annual Hi-Day Friday For Newcomers

Chaffey high school's annual Hi-Day to welcome new students will take place Friday and will feature a "mystery" student and a prize for finding him or her.

Sponsored by the Girls League the affair is introduced as a giant "mixer" in which Hi-Day tags are worn by students and the greeting "Hi!" is standard procedure. A "mystery" student will be selected sometime during the day and the first person to say "Hi!" to him or her will receive a free order for the 1955-56 Fasti, the school yearbook.

To culminate the day a Newcomers Dance will be held in the evening in the Student Union building. Sponsored by the Key Club it will feature Slim Brown and his five piece band. The dance, as well as the daytime Hi-Day activities, is especially for freshmen and other new students.

Upland students, members of the Girls League, sponsors of the event, include: Cynthia Barone, treasurer; Margaret Castellini, school service chairman; and Gail Frankish, welfare chairman.

Next activity for the Girls League will be the Newcomers party for all new girls on October 6. Parties will be held in the Girls Gym during all periods in which the girls have physical education.

The Petitions committee appointed to obtain the needed names has but 36 days more before deadline and while they report an enthusiastic number of volunteers more could be used to make certain the area is thoroughly covered in the alloted time.

Water Gardens Capture Trophy

Van Ness Water Gardens won two top awards in the Los Angeles County Fair at Pomona.

The display, which features night bloomers and a rare Amazon Lily called Victoria, won a blue ribbon and a first trophy as the most beautiful display in the horticultural building.

The lily, which in South America attains a leaf width of about four feet, had leaves, which developed in Upland's more temporate climate, of 30 to 36 inches. As far as Mr. and Mrs. Ted Uber, who operate the water gardens know theirs are the only such lilies in the western U.S.A.

Eisenhower and Nixon

Undoubtedly, the "If" has been removed from the 1956 Republican presidential campaign.

Just as everyone is greatly concerned over the health of President Dwight Eisenhower, everyone is also asking who might be his successor in next year's campaign. No sooner was the word out about President Eisenhower's condition, than observers began casting about for political leadership.

At no time had President Eisenhower publicily committed himself about next year. Rather, he urged the development of more leadership within the party.

Vice President Richard M. Nixon is a capable substitute during the emergency. And he is likely to be in a favored position to succeed to the Republican candidacy.

California is blessed with capable leaders, including U. S. Senator William Knowland and Chief Justice Earl Warren.

Other national figures can step into the void but Mr. Nixon's experience, training, ability and dedication to public service are noteworthy.

Cucamonga Incorporation?

The incorporation movement in Cucamonga and Alta Loma is uniting the interests of the residents as nothing else has. Over coffee cups, along the streets and wherever a resident of that area meets with someone else, the principal topic of conversation is "incorporation."

One big value of incorporating is development of community interest. The "city of Cucamonga" would give the residents a stronger entity. In this area of rapid expansion and growth, here and elsewhere, the maintenance of strong community loyalities is necessary. While Cucamonga and Alta Loma now have their own civic groups, there is not the common bond of interest that would exisit if a city were formed.

Within the next 10 or 12 months it will be determined if the incorporation movement is to be realized. Right at the moment, however, enthusiasm is high.

It is inspiring to see the development of such a strong civic spirit.

And Finally Safety Belts

Automobile manufacturers are finally coming to it—providing safety belts as optional equipment. The next step will be to make the safety belts standard equipmennt and eventually to make their use mandatory.

The 1956 car models reflect a trend toward safety. Motorists are glad to see this. Safety belts are a long recognized need and their use in the Upland district is rapidly expanding.

It is time car manufacturers give some real attention to safety and not so much to speed. We have beenn killing ourselves at the rate of about 100 a day on the highways.

An Old-Fashioned Approach

In 1887, Congress passed a bill appropriating $10,000 to buy seed and distribute it to drought-hit farmers. President Grover Cleveland acknowledged that the motives behind this were benevolent. Yet, he vetoed the measure, in a message which contained this statement: "Though the people support the government the government should not support the people."

Was President Cleveland old-fashioned? Maybe so and we like that kind of old-fashioned approach to government.

"It Doesn't Pay"

"It doesnn't pay," says R. Roy Keaton, director general of the Lions club, "to always say what one thinks. Silence is often the most tactful action. It does pay to remember that the other person can also say what he thinks and hurt your feelings, too. Silence is a precious jewel too seldom worn.

"It doesn't pay to lose your temper. But it does pay to discipline yourself to be well-poised at all times and especially under great provocations. Self-control can safely transport you over many a rough course."

We wonder if the stars in the entertainment world think they are worth what they are paid.

The month of September brought labor the news that total employment was at an all-time high and wages at the highest level, which is pretty good news for one month.

Dr. James Latimer — This Life We Live

STILL LEARNING

Whenever I leave the "Old Home Town" with eyes and ears open I learn something new and interesting. Friends tell me that had I begun to do this early enough I might be quite educated by now. So, after I heard over and over about that swank suburb of Chicago known as Highland Park I decided to see it for myself. I did so during my last visit to the Windy City. Then I learned something new.

A group of executives whose business took them into Chicago every working morning learned that they could charter a special car for the trip in and back for an additional $100 each per year. The car would be for their exclusive use if 100 men could be found to join in the project. It was done. Then these men added a snack bar, card tables and other special conveniences. Their car was hitched near the front of the train when going into the city and onto the very tail end for the return trip. This saved these men that long walk of several car lengths both morning and night. They named their car "The Deerpath". Two men servants were added, and a bar; all in addition to that first coffee shop idea.

Then it was that a group of lesser dignitaries conceived the idea of a like project, and found a hundred men who were willing to pay $80 each for a special car, less pretentious and luxurious. They did not add the coffee shop and bar, so did not need men servants and valets. They named their car "The Cowpath". The men in the two cars were never afraid of missing their station, because the cars were cut off at Highland park.

Then a young woman secretary of one of that first group got to thinking how nice it would be to travel in and out of the city without having morning papers thrust into her face by men who were consuming them, and to be sure of a seat without crowding into a seat by some fat man who was hardly willing to move over a bit. She found that a third car could be added if another 100 commuters were willing to pay $80 each per year. All she needed was another 79 women travellers, with a bit of money. She said they would name their car "The Primrose Path". She was reported still to be working on the project.

Why not get a special bus into Los Angeles every morning at special rates? It might be worth trying.

Sharps and Flats

By Chuck Barlow

"If only one man recovers as a result of our efforts within the first year we will feel well rewarded," a member of Alcoholics Anonymous told me last February when the Board of Supervisors authorized AA for Etiwanda Road Camp.

"But," I protested, "isn't this a mighty small ratio of reward for so much work?"

"Not at all," I was told. "One of the strong points of our AA program is carrying the message of AA to the alcoholic who still suffers. If we carry this message enough of the time our sobriety is well insured. Even though not a single man recovers, and this would surprise us all, the men handling the Road Camp meetings will still be ahead."

"How so?" I queried.

"Because they'll stay sober while doing it. After all, our sobriety comes first."

This little conversation last February came to my mind the other day when I spotted my AA friend on the street. I sauntered up and passed the time of day.

"How are the Etiwanda Road Camp meetings coming?" I asked.

"Swell!" was his enthusiastic answer. "That dining room where the meetings are held is nearly full every Tuesday night. We have had as high as 115 men at a meeting

"Have you been able to do any good, yet?" I asked.

"Everything has been swell including the results and the cooperation of the officials at the road camp," he responded.

"Have you been able to report a recovery yet?" I persisted.

"Look," he stuck a long finger at the end of my long nose, "we stay stober 24 hours at a time. After all, we can only live one day at a time and that is all it is necessary to stay sober. If you mean on a 24 hour basis, we have had a lot of wonderful results."

"For instance?" I queried.

"We don't give specific instances," he answered, "after all this is an anonymous program. But I will tell you that we know of eleven men who have been sober since they left road camp and each is attending from three to five meetings a week."

"That sounds quite phenomenal," I ventured, "considering you would have been happy with one."

"Nothing seems to be phenomenal in AA," he answered. "What most people term miracles happen every day with us. But we are real happy to find men who want more out of life than they have ever had."

"Do you think this ratio of recoveries will continue?" I asked.

"That's not for me to say," he replied. "But word gets back to road camp about the men who are staying sober and working on good jobs. These new AA members on the outside have buddies in camp who are interested and swear they are going to give AA a try when they get out."

"It looks mighty good, then?" I suggested.

"Swell," he answered.

"Do you ever take any of these former inmates back to take part in AA meetings at road camp?" I asked.

"Not yet," he answered, "but we will later. We require a year's uninterrupted sobriety on the part of members taking part in the meetings at road camp. If a man exhibits an unusual quality to his sobriety we might stretch a point at the unanimous approval of the committee."

"How soon can the first former inmate go back according to the way things stand now?" I asked.

He flashed a broad grin. "Next March," he answered.

"He must have caught on with a minimum of meetings, considering you started in February," I ventured.

"He was ripe and ready after Judge Barnum adjudicated. He was looking for a better way to live and found it in AA. Four weeks after his release he showed up at a meeting one night with two new ones. Both of them have made the grade so far. He has been responsible for several others since then."

"Must make you guys feel pretty good when you see something like that happen," I suggested.

"Swell," he answered, and grinned.

Cucamonga Water Relief Is Being Geared for June 1956

Call For Bids Within 30 Days Is Now Planned

Plans for actual work on the Cucamonga County Water District are being speeded up looking toward completion of sufficient of the system to relieve anticipated water shortage next spring, committee mebmer Harold Blatz announced this week.

James Montgomery and Associates of Pasadena engaged in preparation of plans for the project are being asked to speed their work in an effort to advance the completed plans at least by 30 days that bids may be asked for pipe and such steel products needed for initial work.

Initial ordering is being planned within 30 days, Mr. Blatz said, as delivery of necessary materials for construction of reservoirs, pumps and necessary pipe cannot be expected for from three to four months after orders are placed.

Surveying for sites for the four reservoirs and pumps at the aqueduct are being pushed also, Blatz said to speed up the project. The accelerated effort is the result of the present drop in wells Blatz continued, many of which are now pumping sand indicating they are reaching bottom and it is felt the new water relief must be made available by June of next year.

BONS BEING PROCESSED

Blatz said also that bonds are being processed and legal compliance being speeded that they may be able to bring potential buyers to inspect the property by October 7. It is expected that buyers will take up the bonds at or near the October date which will allow immediate funds to finance the speeded up material orders.

Missionary Home For Year Leave Visits Mrs. Hall

Kenneth Engle, nephew of Mrs. David Hall, 620 N. First Ave., together with his wife and two small daughters stopped for a surprise visit on their arrival in the states from a four year missionary assignment to the Philipines.

Mr. Hall, who was stationed in the Philipines with the Fifth Air Force during the war, after his return home for study, took the assignment to return as a missionary of the "Christian Missions In Many Lands" a non-denominational missionary movement under the direction of the Plymouth Brethren.

Mr. Engle, whose home is in Abilene, Kansas, was sent from that city to Manila in 1951 where he served mainly in the work of broadcasting a weekly message, "Bible school of the Air".

It was while there he met and married Mrs. Engle who also was assigned to that area as a missionary nurse.

The couple plan to return to their Kansas home with his father, a brother of Mrs. Hall, who motored to San Francisco to meet them on their arrival.

They will spend one year on a furlough after which they will again return to the same mission.

Reading Readiness Vital Factor Before Beginner Takes To Books

(The following is the first in a series of four informative articles on reading skill by Mrs. Opal Hawes, curriculum co-ordinator of Upland Elementary schools. Of particular interest to parents it will also interest all who are curious about modern methods of education. Ed.)

By Opal Hawes

No matter what grade your child is in, he is at some stage of beginning to read.

He may be in kindergarten reading pictures, telling stories, or having experiences which will help him when he graduates into book reading. He may be in the third or fourth grade and growing rapidly in his reading skills. Perhaps he is enlarging his reading interests in the upper grades. Wherever he is in the elementary school he is at some stage of learning to read and learning to read is not easy.

ABILITY DIFFERS

All children are not ready to learn to read at the same time. On your child's sixth birthday he does not automatically receive or attain all the complex skills which are necessary to successful reading. Just as all children do not cut their first tooth at the same age, or stand up and walk, or begin to talk at the same time, so children are not ready for the same intellectual skills at the same moment. The one certain thing about children is that they are different — physically, emotionally, socially, and intellectually.

Our schools plan for this difference with a reading readiness program. This is a program of preparation for reading. It is so planned that it provides many experiences for children which supplement and extend the ideas they bring to school.

Many of the activities are directed toward providing situations in which children want to talk because they have something interesting to talk about. As the children gain experience in expressing themselves before the others, they acquire power over words.

Some children have had more varied experiences than others before they come to school. The activities of the readiness program help all the children gain a common background of experiences and ideas needed to read with understanding.

TEACHERS IMPORTANT

The principle of providing activities and experiences which will help children understand and interpret what they read is applied by teachers of all grades.

Many of the group activities your child engages in contribute either directly or indirectly to his progress in reading, by arousing interests which books will help to satisfy, by buildng up a background of experence and vocabulary which will make his reading more meaningful, by giving him an opportunity to try out for himself ideas he has found in books.

Teachers and parents are partners in providing good educational opportunities for all our children. For each to assume his share of responsibility there must be knowledge and understanding of goals and cooperation in attaining them.

Padua Hills Fall Season Opens Tuesday

Building Firm Finishes New Home For Robert L. Youngs

Towering old trees make a frame and background for the new home recently completed for Mr. and Mrs. Robert L. Young, 436 N. Eighth Ave.

Local Growth Reflected By Building Record

The building industry is finding itself hard pressed to keep abreast of the rapid growth in population of Southern California. Only by expanding operations has this been possible.

One of the leading home builders in the Southland, Harmony Homes, has constructed more than 1700 dwellings in the West End and eastern Los Angeles county during the last year.

This record of construction is in keeping with the almost unbelievable growth of Southern California.

Harmony Homes recently completed new models and moved offices to 721 S. San Antonio Ave., Ontario, where the new homes can be shown and where a general business office is maintained.

In Upland, Robert Young, Jr., 530 N. Eighth Ave., is sales manager for the local branch of the company. His parents, Mr. and Mrs. Robert L. Young, 536 N. Eighth Ave., live in one of the new Harmony Homes which has been recently completed.

This new home on Eighth Ave. has the advantage of many of the older towering trees typical of Upland to provide a background and add beauty to the setting. Mr. and Mrs. Young have made more than average progress in nurturing a new lawn and foundation plantings.

General manager of Harmony Homes is Phil Dreyer, 1826 S. Palmetto Ave., Ontario, a veteran in the home construction field. Lloyd Neely, construction manager, lives at 9405 Hellman Ave., Cucamonga. A construction man of many years standing, Mr. Neely is a former resident of Upland.

Harmony Homes construction answers a definite need in this community, Mr. Young pointed out. With construction costs for as little as $4.69 per square foot many property owners have been able to turn vacant plots into income property. This is in addition to the many persons who have turned to Harmony Homes for a dwelling unit they can call their own, Mr. Young said.

Many lot owners have found they can get a return of 20 per cent above the monthly payments after constructing a rental unit. The owner will actually receive an appraisal over and above the construction cost on a good residential lot, Mr. Young said.

"Industrial expansion insures a good rental market for a least 10 years in the future. These many new industries will need housing for employes. A vacant lot can be greatly enhanced in value and a means of income creted when a suitable dwelling is placed on the property," Mr. Young said.

Harmony Homes is but one of many building concerns in the Southland that have been building homes by the scores. Vineyards, citrus groves and vacant lots have given away before the concentrated force of these builders.

Students present their winning orations from campus programs.

Those interested in obtaining speakers may phone YU 627-11, station 36 for bookings.

Returns From Alaskan Trip

Mrs. Grace Cuthbertson, 286 Euclid Pl., returned recently from a two month's vacation in Alaska.

The trip delayed a year because of the illness of Mrs. Cuthbertson's sister Mrs. May Lane, last summer came unexpectedly when James Lane and his son Jimmie of Mountain View, Alaska, flew down to buy a new car in Ontario, where his mother, Mrs. Lane lives.

Mrs. Cuthbertson took the bus to Orland and with Mrs. Lane and her daughter Mrs. Caroline Cotramac, completed the party on the return to Alaska of James Lane and his son.

"It was a lovely trip," Mrs. Cuthbertson reported. "We drove up Highway 99 to British Columbia where we took the Hart Hwy. which joins the Alaskan Hwy.

"The road isn't paved for 1600 miles but it is better than some paved roads, although dusty in places. We saw lots of wild life including elk, bears, porcupines, otter and mountain goats. We didn't see a bull moose or a caribou, which I regretted.

"There's a lot of water in the north country. Lots of rivers and lakes, but all the water isn't good to drink. The trip up took us 8½ days".

She explained that her sister, Mrs. Lane has both a son and a daughter at Mountain View. The daughter is Mrs. Clifton Compton. Both Mr. Lane and Mr. Compton are in government service. They like life in Alaska.

Mrs. Cutherbertson says that living is high. A loaf of bread in Anchorage costs 50 cents. But salaries are about double so it evens up.

She made the trip home by plane and it was a rough one from Anchorage to Seattle but it was also very beautiful.

Student Groups Hold Elections

Upland and Alta Loma young people are playing a dominant role in student activities at Chaffey college this year. They were elected to many offices last week when student groups held their elections.

Larry Collins of Alta Loma, is the new student body president. He held the same office in last year's freshman class. He is also a member of the service club and is a member of the Panther Blacks.

Larry Crowley of Upland was elected freshman president. Two other Uplanders, are on his executive board. They are Roberta O'Reilly, secretary and Don Hanson, treasurer.

Officers who make their homes in Upland, serving with Larry Collins will be Judy Smith, Laura Shepherd, Bob Patrick and Charlotte Carrari.

Found Something The Hot Spell Was Good For

The recent heat spell had one beneficial effect on citrus of the county according to Jack Clay, pest control operator.

During his inspection trips since the heat he reports he has been unable to find any trace of the red spider pest.

He advises any grower planning to treat his grove for the pests to again look over his trees to be sure the heat hasn't greatly reduced if not eliminated them and probably further treatment will not be necessary.

Three Parties Seek Office

An enthusiastic three party election for control of the student body is being waged this week in the Upland Junior High school. Campaign speeches and posters are the main weapons of "Jon's Cons", "Wulf's Well Groomed Wonders" and "Julie's Jiving Juveniles".

Julie Thrall is running for president of the latter party. Doug Wulf is a second presidential candidate and Jon Kay is the third.

Julie's supporting slate is made up of Claudie Owen, Reed Hansen, Linda Davis, Robert Pitts, Greg Reisner, Ann Engle, Molly O'Brian and Ida Wolfe.

Doug's party candidates are Kay Johnson, Susan Jones, Kenny Smith, Carlos Ynostroza, Mike Callahan, Bev. Wood, Sharon Larson and Doug Bartlett.

Running on the ticket with Jon are Rosalie Bradford, Jan Swihart, Harry Crowe, Linda Thudium, Evan Wolfe, Susan Dundas, Ellen Turner and Lui Horstmeyer.

Bills still come due every month, despite the thawing in the cold war.

GENERAL SYSTEM
GENERAL TELEPHONE COMPANY OF CALIFORNIA
A Member of One of the Great Telephone Systems Serving America

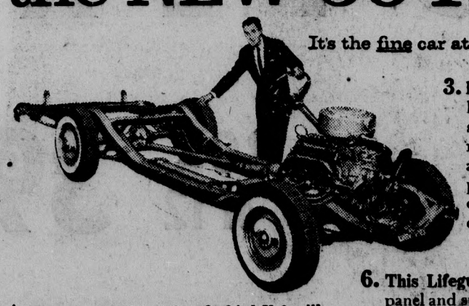

1. We'd like to show you some of the things that make the Ford one of America's finest cars . . . though it's one of the lowest-priced. Let's start with these long, low lines. Looks like it hates to stand still, doesn't it?

Let's take a walk around the NEW '56 FORD!

It's the fine car at half the fine car price!

2. Here, on your left, is the inspiration for the styling of the '56 Ford—the famous Ford Thunderbird. Look at those broad, flat hoods, for example. Here is styling that will *stay* in style.

3. Here's what you ride on. This frame has *five* cross-members including a special K-bar member up front. It can really take it! By the way, the control arms of Ford's Ball-Joint Front Suspension are angle-mounted to cushion out the head-on as well as the up-down shock of bumps.

4. The new 202-h.p. Thunderbird Y-8 will give you a new lease on driving enjoyment. It's available in Fordomatic Fairlane and Station Wagon models. You can have the "GO"-packed 176-h.p. Y-8 in Fordomatic Mainlaine and Customline models, or Ford's new 137-h.p. Six is available in any model.

5. Note the deep-center design of this new Lifeguard steering wheel. The wheel rim is over three inches above the post to help cushion the driver in case of an accident. It's a feature of new Lifeguard Design which Ford spent over two years developing . . . to give you added protection in case of an accident.

6. This Lifeguard cushioning for instrument panel and sun visors is optional. It gives you extra protection when thrown forward in an accident. You may also have optional seat belts to help keep occupants securely in seats.

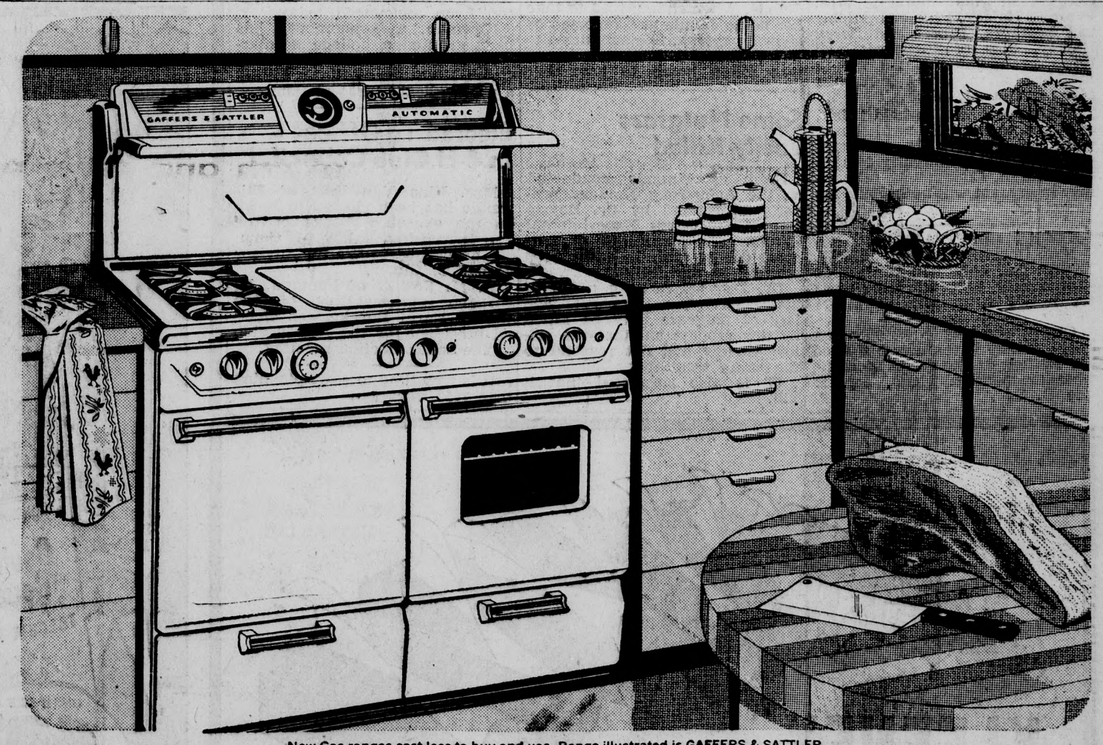

7. Here's Ford's new Lifeguard door latch. It is another member of Ford's new Lifeguard family. A double-grip locking engagement reduces the chance of doors springing open under unusual strain of impact. Chances of serious injury in accidents are less when passengers remain *in* the car.

Well, that covers the important points. But there's a lot more. So we'd like to invite you to come in and see the new '56 Ford for yourself. Then you'll see the colorful new exteriors and interiors, the quality workmanship that is evident *everywhere*. Then you'll learn the full story. When you do, you'll *know* that Ford is the *fine* car at half the fine car price.

Jennie Causes Mild Flurry When She Goes 'A Visting'

Mrs. E. E. Hawthorne, 904 E. Eighth St. and Jennie, are shown in the garden of the Hawthorne home after Jennie was returned following a flying visit around the neighborhood. Jennie and her mate, Jim, live a deluxe life on a diet of raw meat, nuts, cereals and the pickings of the orange grove.

Jennie, a tame black crow, one of two crow pets owned by Mr. and Mrs. E. E. Hawthorne, 904 W. Eighth St., caused a mild flurry in Upland on Friday when she decided to go visiting.

Leaving her mate Jim at home she flew off alone to investigate some of the other Upland districts and within the space of an hour Friday The Upland News received three phone calls about her activities.

Mrs. Leslie Standlea, 305 Greentree Rd., reported there was a talking crow in the area. Mrs. V. L. Hoxsey of 351 Orchard lane reported Jennie as a raven. She said the bird was very tame. Another caller, concerned because she was sure Jennie was a pet said that the visitor was perched in a tree in her garden.

The word got back to Mrs. Hawthorne who hadn't missed Jennie. When she arrived to take her home Jennie was reported as showing shame. She submitted to being wrapped in a towel and was taken home to have her wings clipped.

The Hawthornes were given Jennie by Mrs. Lois Mahan who operated a kindergarten in Upland one year ago. They have had Jim for one and one and one half years. For years they have encouraged wild birds in their garden. Boy Scouts who were under Mr. Hawthorne's leadership in scouting used to go to Hawthornes to study the birds in the garden.

Some Nutgrass Easily Killed

From experiments conducted on the Armstrong Nursery property in Upland by Dr. Boysie Day of the Citrus Experimental Station, some varieties of nutgrass can be easiy killed by deep plowing in dry soil.

Dr. Day states as a result of his research that the purple variety of nutgrass may be killed by this process but that the yellow variety will not respond to the same treatment.

IT is also suggested that it kill.

David Newman Enters Pomona

Completion of Shooting Range Sgt. Jackson's Personal Project

HARLAN JACKSON

Sgt. Harlan Jackson of the Upland police department, though covering a multiplicity of jobs, enjoys his work because of that very reason.

"There are never two days alike," Sgt. Jackson says, "because there is never a pattern. Each arrest and each assignment differs."

As commander of the 6 man swing shift division of the department, Sgt. Jackson merely begins his duties. In addition he is juvenile officer, liason officer in charge of the training program for 20 reserve officers and though working night shift has shortened his time, he is still actively interested in building of the department's shooting range.

The latter is a pet project now only partially completed but one the sergeant insists is needed and he says he intends sticking with it until finished.

"Unlike many cities the Upland reserve officer corps is a working unit under pay and calls for at least one night schooling a month," Sgt. Jackson stated. "We actually train in the class, teaching the new men the making of intelligent and complete reports, how to interrogate, how to handle mental cases and such, that in their regularly assigned periods they are able to function with the confidence of regular members of the department."

Sgt. Jackson, a member of the Upland force the past eight years, came to Upland from New Mexico and attended Chaffey college graduating with the class of 1943.

He entered the navy in 1945 and spent three years in service as an aviation machinist mate 3-c. He went directly to Oklahoma for a six month training period then after additional training in Florida was assigned to CASU No. 33 completing his service in the carrier air service.

Sgt. Jackson lives with his family at 649 Highland Ct. He has two boys, aged 4 and 8 years.

Mr. Pyle, a dynamic speaker is deputy assistant to President Eisenhower on the policy level. With him, at the head table, will be Senator Thomas Kuchel and Mrs. Mildred Younger, who will introduce the speaker and other head table guests.

Arrangements are in charge of William E. Walk, San Bernardino Co. Central committee chairman. Purpose of the dinner is raising funds for the presidential convention to be held in San Francisco next year.

Tickets may be obtained from the following: Leland Davidson, chairman of the campaign fund; J. B. McCarter, Lovon C. Phillips, Edwin Wickstrom, Douglas Sage. Messrs. Allan Barr, Leland Scheu, L. J. Barden, W. H. Tangeman and Dr. Norman Abbott.

Area To Get New Industry

Future employment for residents of the Upland area is indicatedin the announcement of a new major aircrfat plant to be constructed at the Ontario International airport.

Lease of a 10-acre tract to the Ontario Aircraft Corp., of Ontario was approved by the Ontario city council.

It was announced by officials of the corporation that temporary use of a hangar and shop building has been arranged pending completion of their new facility comprising 90,000 sq. ft. of floor space.

Must Answer To Charges Oct. 13

Henry C. Yahn, who admitted to more than 40 church robberies when arrested by Upland police last week pleaded guilty when arraigned in the Justice court and must appear at two preliminaries Oct. 13.

Arraigned in Upland Justice Court Saturday he entered a plea of guilty and was remanded to Upland jail to await his preliminary set for 9 a.m. Oct. 13. Later he was taken by Ontario police for arraignment on similar charges to the Ontario Justice Court where he made a similar plea and must appear there for a preliminary hearing one hour later on the same date.

Student Fair Prizes Won By Alta Lomans

All prizes in the Chaffey high school future farmers exhibit in the horticultural display were won by young residents of Upland and Alta Loma.

Bill Barrass, Barney Carrari and Charles Mandala won prizes in a wide variety of displays.

Have you ever noticed that the average person listens to the man who talks loudest, not to the one who knows anything about the subject?

Will Decide Baldy School Bids Nov. 14

Bids for the construction of an addition to the Baldy View elementary school will be opened by the Upland board of education Nov. 14. At least four new classrooms and perhaps a fifth and offices and storage room will be included in the new work.

Upland board of education members in a meeting Monday night authorized the construction and call for bids. Officials are hopeful the new classrooms will be available at the start of school next year.

Contract was let by the board members for construction of a building to house shower and locker facilities at the junior high school. Carl Harvey received the award on a bid of $47,860. Letting of the contract was delayed for a week so officials could check over specifications in an effort to delete every possible non-essential item. Total of $580 was eliminated. It was explained that at the outset specifications included only the absolute essentials. While the contract price was higher than anticipated, the board was advised that since much of the work concerns plumbing fixtures and installations, an unusually high per-foot cost of construction prevails.

Steel lockers for use by physical education students are included in the specifications.

Heat Injures Lemon Crop

While it is far too early to estimate ill effects of the recent heat spell to lemons and oranges, agriculture authorities of the area feel certain there has been damage.

In some areas very green buds are believed to have been damaged by the heat but the extent cannot be determined until next year's crop, although spot checks show considerable drop of green fruit.

Valencias still on the trees also suffered some in scattered areas but navels appear to have withstood the heat from initial indications.

Sparked by continued active demand, prices advanced on all sizes of Southern Clifornia valencias during the week ending Sept. 24. Sales by Sunkist growers increased about 60 cars over the previous week to around 660 cars and average prices moved up 25 cents to just over $4.55 a box f.o.b. on fruit sold to interstate markets.

There was little change in the California lemon market during the week ending Sept. 24.

Potluck And Family Social At Cucamonga

Community Methodist church, Cucamonga, will hold a family social night tomorrow, beginning with a potluck supper, at 6:45.

Mr. and Mrs. Guy Wheatley will be the hosts. Coffee, tea, rolls and butter will be provided and a collection will be taken to pay for these items.

The program will consist of vacation echoes. Several members of the church will tell of their vacations and show color slides.

Pupils Learn Reading By Pattern

Reading readiness follows a distinct pattern as pupils of the kindergarten class of Baldy View school demonstrate. Before students learn the preliminaries of reading they must be attentive and that is the purpose of this little game with gestures. Holding their hands high they are acting a little rhyme: "Open shut them. Open shut them. Give a little clap! Open shut them. Open shut them. Lay them in your lap." The rhyme doesn't say so, but listening and attention to teacher follow this readiness game. Pictured are, L. to R.: Ruth Ann Berry, Sharon Norton, Daryl Pollard, Sheila Frye, Nancy Harlow, Mrs. Gene Harper, teacher; David Cardin. (See story on Page 3 Section 2.)

Upland Woman Is Winner In Sewing Contest

Mrs. Ralph Smith, 644 Vallejo way, Upland, and Pat Taylor, 1550 N. Cypress St., Ontario, won the annual J. J. Atwood Co. sewing contest, winners being announced at the fashion show Saturday afternoon.

Mrs. Smith topped all contestants in the adult division with a 100 per cent wool tweed outfit made for her son, Derwin Smith.

Miss Taylor, daughter of Mr. and Mrs. Ralph L. Taylor, was first in the junior division. She made an attractive teen-age cotton dress for herself and modeled it in the fashion show.

Entries were modeled as a feature of the fashion show in the Atwood store. Each first prize winner was given an award by the company. Mrs. Donald R. Smith, 8251 Tapia Via, Cucamonga, won second in the adult division and Mrs. D. A. Gannon, 1423 N. First Ave., placed third.

Other winners in the junior division were Jean Marie Shinn, 748 Rosewood Ct., Ontario, and Barbara Taylor, sister of the winner.

Judges were Mrs. E. R. Croy, 8176 Tapia Via; Mrs. Marion Maxwell, 743 N. First Ave., and Mrs. Rachael Temple, Upland high school homemaking teacher.

Introducing the contestants and describing the garments was Mara Sanders, an Atwood Co. employe.

School Election For Grade Pupils

Registration to vote in the Upland School District Excess Tax Rate election, Nov. 22, showed a decided upswing during the closing days ending today, according to Mrs. Lillian Hilde, secretary of the chamber of commerce where registration was held.

The proposed excess rate will operate for a period of five years beginning July 1, 1956, when the proposd excess rate will be 30 cents per $100.00 of assessed valuation as compared to the present 40 cent rate. This 10 cent lower rate is possible because of the recent increase in the assessed valuation of real property.

Permits Issued For Construction Of Two New Homes

Permits for the construction of two new homes at a combined value of $14,000 were included in those issued this week by Richard Derby, Upland building inspector.

T. Lopez, 1409 Chaffey St., was issued a permit for contruction of a residence at a stated cost of $8500 and a permit for construction of a residence at 925 Sycamore Ct., at a stated cost of $5500 was issued to Cardinal Homes.

Herman Felts, 385 W. 22nd St., was issued a permit for installation of a wind machine at $1350, Sheet Bros., 1267 E. Ninth St., were issued a permit for conversion of existing car port to a bedroom, valued at $600 and another issued to Fred Jacobs, 411 8th Ave., covering alterations to interior of existing dwelling, at an estimated cost of $500.

Five permits totaling $1250 were issued for repairs to termite damage to the following: L. H. Jones, 281 W. 7th St.; Earl Williams, 263 W. 7th St.; F. L. Abbott, 245 W. 7th St.; W. B. Volegraph, 268 W. 7th St., and Eleanor Taylor, 1370 W. Foothill Blvd.

The successful will always bear the brunt of envious tongues.

Chaffey Wives Sponsor Picnic

Chaffey Wives held their first meeting of the year Sunday, when they sponsored a family gathering in the form of an old fashioned picnic. They gathered in the quad at Chaffey for a day of swimming, sack races and other games, with Mrs. Kenneth Proctor and Mrs. Dana Alexander in charge.

The day ended with a basket lunch when Mrs. Robert Scheighardt and Mrs. Stuart Brockway, of the hostess committee, served punch, coffee and ice cream.

Mr. and Mrs. Wallace Birdsall and family are now residing in their recently completed new residence at 8420 Arrow Hwy. They formerly lived at 263 Sultana Ave.

Style Show Winners Named

Pat Taylor, winner of the junior division, and Mrs. Ralph Smith, winner of the senior division in the J. J. Atwood Co. annual sewing contest are shown above. Also pictured is Derwin Smith, son of Mrs. Smith who is wearing a wool tweed suit made for the contest. Miss Taylor is an Ontario resident and Mrs. Smith resides with her family at 644 Vallejo Way.
